

ASCENDING EMPIRES

ZENITH EDITION

Expand across the galaxy and build your civilization!

A 4X GAME IN UNDER 90 MINUTES

This new version of Ascending Empires offers new gameplay and upgraded components. The first major upgrade are 2 neoprene starmaps for the ease of flicking your starships into orbits of other planets – or into other starships! In addition, over 120 plastic miniatures, discovery tokens, mission cards, starbases, megastructures, and other added material make for variable play each time. You can even play with the original rules!

- **Classic game:** At 13 years old, the game is well regarded as an amazing and unique 4x experience.
- **Excellent components:** Including dual layer player boards, and wooden planet and starship discs.
- **Loads of Miniatures:** 120 miniatures from troops, outposts, cities, and research facilities.
